Previse Systems is a young Swiss technology enterprise in energy trading software. We were set up and are run by experienced executives from the industry, following the vision of building the right software for the energy trading communities.

At Previse, we utilise the most modern available technology to implement innovative new concepts to deliver the next software generation, smart and scalable, to the energy markets. Our vision is to become the global leader in energy trading software.

We pride ourselves with a flat hierarchy and a "let's do it!" attitude.

To complement our team, we are currently looking for an

Associate Product Owner – Energy Trading & Risk Management

Job type: flexible, 20-100%
Location: Switzerland / flexible
Start Date: ASAP

About the Role

In this role you will be working as part of a small and diverse product management and -development team to maintain and improve the business functionality and user experience of our energy trading and risk management (ETRM) platform Coral. This includes improving existing functionality but also enhancing the application to expand the functional footprint.

Key Responsibilities

- Work closely with the functional- and technical component owners to implement product enhancements, improvements and bug fixes.

- Support the product owners by taking over the responsibility of smaller – and over time larger – product changes in a front-to-back fashion of product ownership: specification, task management, validation, documentation and roll-out of data model changes, API changes as well as UI changes.

About You

You have some experience in a related field of either Development, IT or ETRM business.

You are a team player who works well under pressure and who likes to challenge yourself working with highly experienced and talented individuals. You are communicative and able to establish and maintain effective relationships with internal and external customers.

You have:
- Great attention to detail
- Proficiency in Microsoft Excel
- Basic understanding of exchange traded products in the commodities space advantageous
- Basic SQL advantageous
- Basic understanding of JSON REST APIs advantageous

Work Environment & Culture

We were founded 4 years and still retain our start-up mentality! 🙂

We offer a friendly, driven, multicultural and multi-lingual (currently our employees come from 15 different nations!) environment. We practice an open culture and aim to structure the roles and positions so that they fit with our employees' profiles and preferences.

We favour competence and passion over formal titles and egos. We share our successes.

We have fun together!

Position Type / Expected Hours of Work

This position typically operates during regular business hours during the week, but our intent is to provide a high degree of freedom for the right candidate.

Travel

We have no travel requirements at this stage. Our customers and partners are located all over Europe, so travel could be possible, but is not a job requirement.

Apply for this job now by sending your cover letter and resume to career@previsesystems.com.

We look forward to hearing from you!
